75	VERB&PREPOSITION DOMINOS	6053891 75 V+PR DOMS https://www.tes.com/teaching-resource/verb-and-preposition-dominos-illustrated-widgit-6053891 Symbols (c) Widgit Software 2010. Two sets of dominos with verbs that occur with different prepositions as phrasal verbs. These are hard to get sorted out (cf a car pulling out and a dentist pulling out a tooth). English has many of these verb+preposition phrases, some of which have several meanings and can be idiomatic. (It has not been possible to include all examples here but you can make students aware of them at an appropriate level.) These expressions cause great problems for the ASD group and others with language difficulties and need lots of repetition. Could be useful for EAL too. Print on A4 card and cut to dominos.
87	VERBS PODD CAN DO	6054655 87 LOTS OF VERBS PODD CAN DO https://www.tes.com/teaching-resource/verbs-podd-can-do-widgit-illus-6054655 Symbols (c) Widgit Software 2010. Two files of verbs. LOTS OF VERBS PODD CAN DO is divided into verbs people do: movement, vocalising and expressing emotion verbs. If you have access to the program Podd, it is great to see the cartoon character do the verbs – it will be the same every time and children learn that sometimes the same action may come up for different words with similar meanings. The cartoon moving is far more meaningful than a picture. But you can still demonstrate these verbs if you don't have Podd. Print on A4 paper for your vocabulary folder. VERBS PODD AND ANIMALS CAN DO again features verbs that will be shown on Podd if you type in the word – let the child do it if possible. When some awareness of what the verbs mean has been established, you can cut up all the pictures and talk about which animals do what, and why. E.g. the moth can fly and it's good at hiding because it's camouflaged. The tiger can run and scratch but it too is good at hiding in long grass. One wants to avoid being caught and the other wants to creep up on prey. Some birds can hover, some cannot fly but can swim – and so on.
